The low level of youth participation in democratic processes, as well as the distrust young people show towards the democratic institutions and values may result in exclusion and social marginalisation.

**WE HEAR YOU** Project was carried out to provide a basis for an improved culture amongst youth professionals, as well as structures that support democratic dialogue and youth involvement in order to promote civic participation, create participatory mechanisms, thus preventing marginalisation and its negative effects on individuals and society.

## We offer

- ◆ A project website with a database to share existing methods and tools (best practices) to promote democratic dialog and youth participation
- ◆ 2 online courses for youth professionals: Reflections and Democratic Dialogue

## We will

- ◆ Continue to develop more methods and tools
- ◆ Continue to look at further possible structural revisions that facilitate youth participation
